

MERHABA INTERNATIONAL

Grow what you love and what you love will grow

About Us

Merhaba international is a company registered in Karur Tamilnadu India, established in 2013 with an aim to provide the best quality ,sustainable and cost effective, agricultural raw materials to UAE.

Key Focus Areas

Our company mainly deals with COCO PEAT, which is an ecofriendly organic inert growing medium with excellent moisture retention capabilities.

What is Coco Peat?

Coco Peat is taken from the husks of the coconuts. It goes through the process of washing, drying and sieving, which makes it ready as a growing medium for any plant. Coco Peat is basically the waste material generated during production of coir. In earlier times, it was discarded as waste. Now, this coir waste has proven to be an excellent medium in which plants can be grown .

Converting Waste Into Wealth

Benefits of Coco Peat

100% natural, no chemicals added.

Does not develop fungus!

Reusable

Cheaper and more sustainable as compared to other growing mediums like peat moss

Excellent water retention capabilities

Ideal PH Between 5.5-6.5

Absorbs nutrients easily

Rapid rewetting, Good Drainage and Aeration

Compressed into various Forms

Coco Peat – The Perfect Hydroponic Substrate !

Coco Peat has the perfect properties for hydroponics

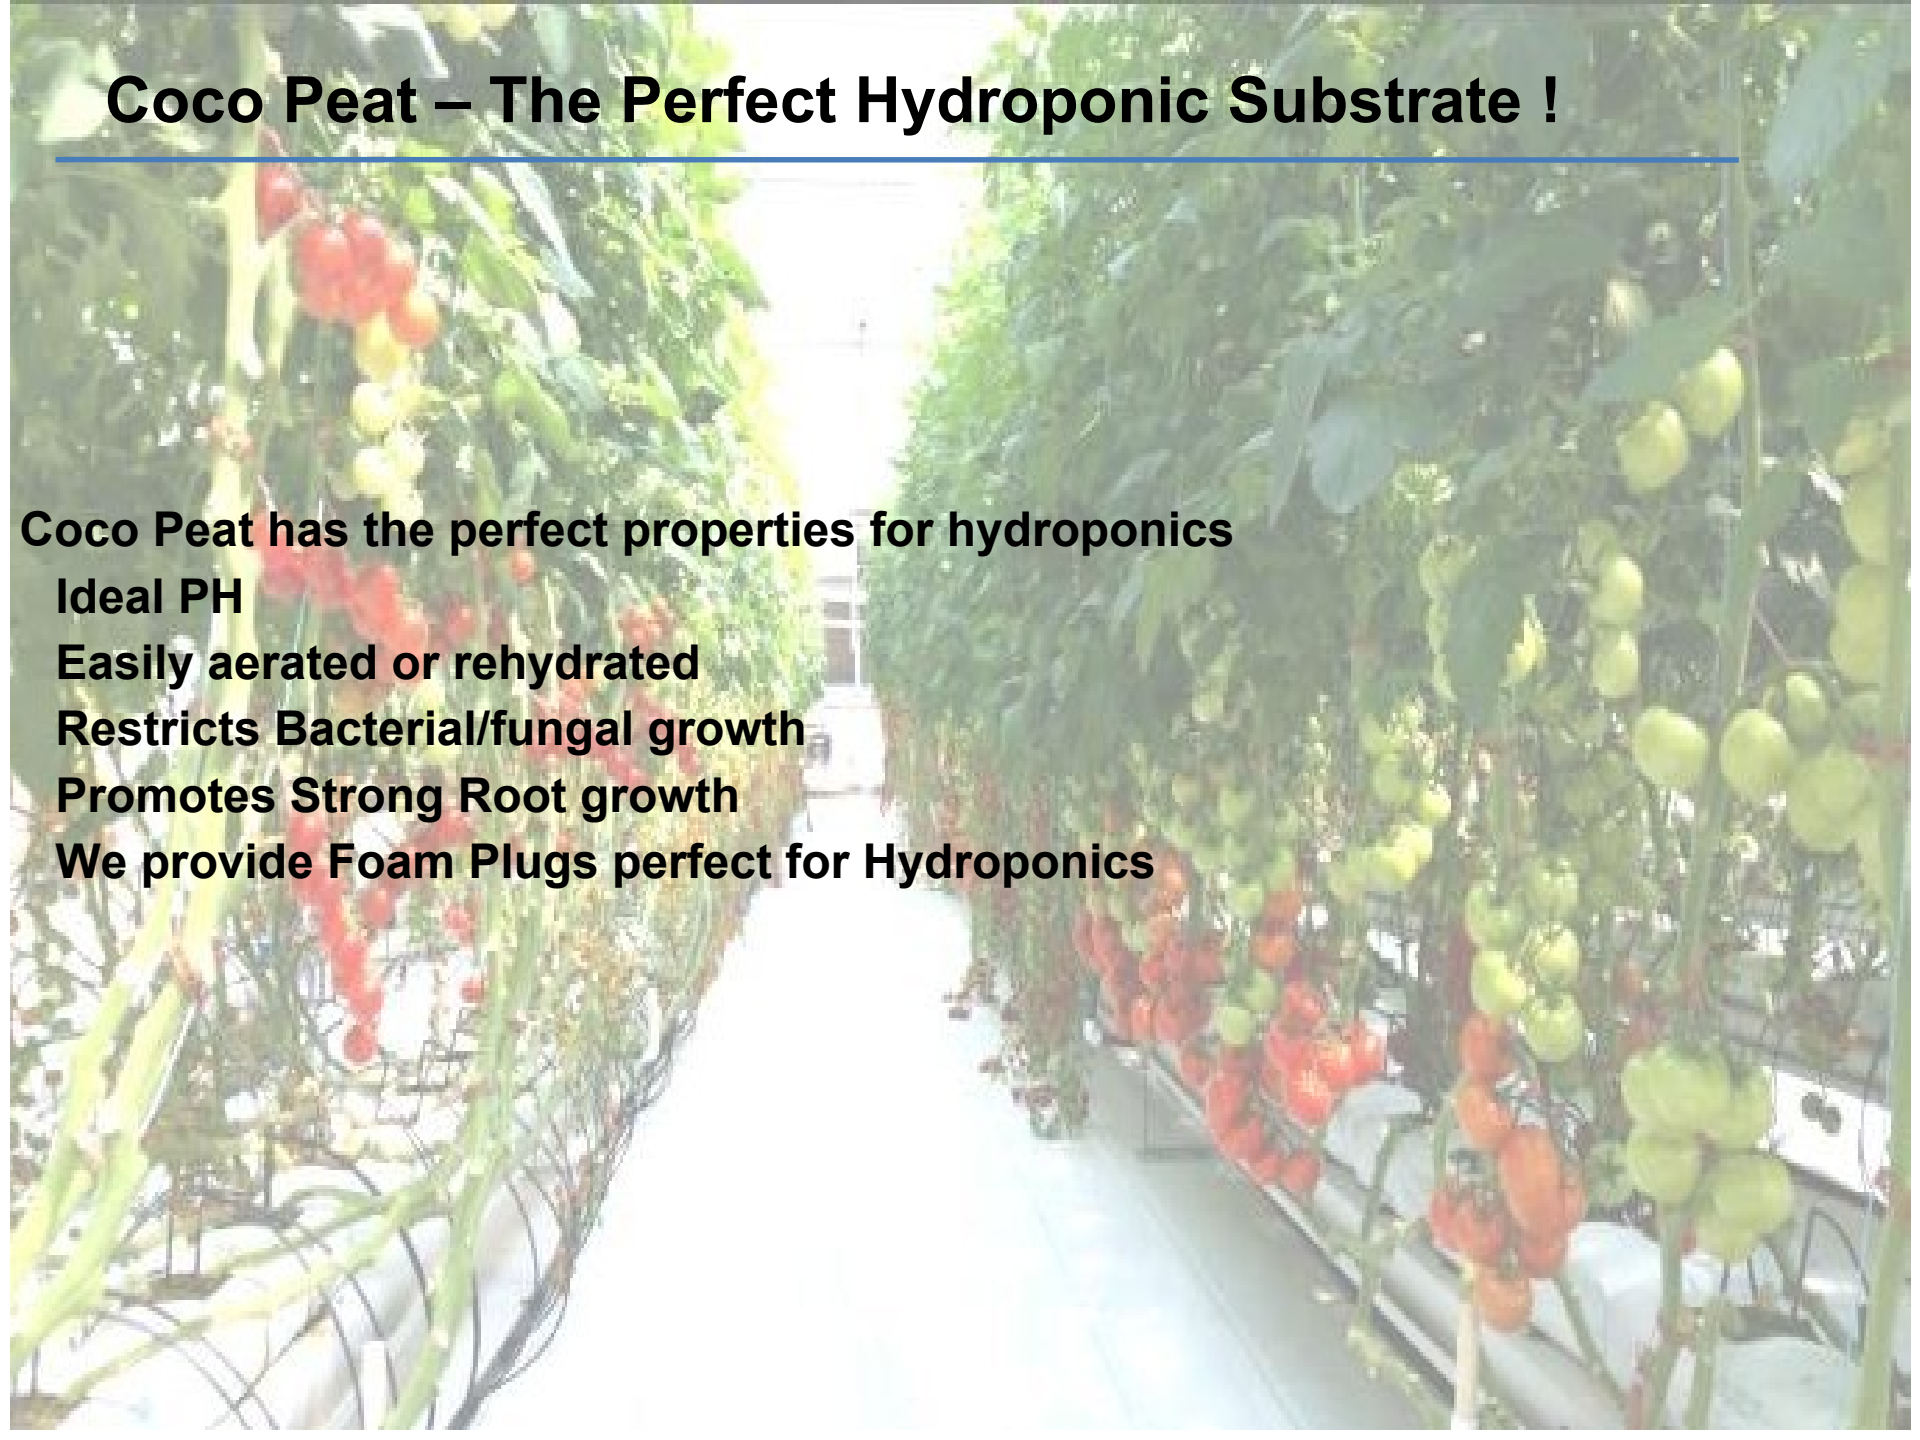

Ideal PH

Easily aerated or rehydrated

Restricts Bacterial/fungal growth

Promotes Strong Root growth

We provide Foam Plugs perfect for Hydroponics

Product Portfolio

Coco Blocks

Weight	:	4-5 Kg (based on Requirement)
Expansion	:	1 Kg : 15-18 L
EC	:	Low and High EC available depending on plant requirement
PH	:	5.5-6.5
Soil and other impurities :		Below 2%
Fibre content :		Below 5%
(Customizable based on buyer requirements)		

Briquettes , discs and other varieties available on request .

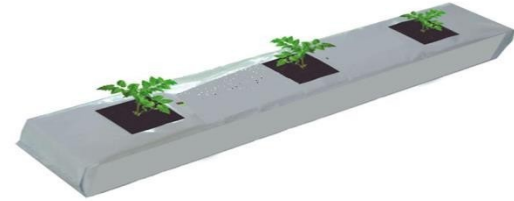

Coco Grow Bags

Each bag contains either 100% cocopeat or a mix of cocopeat and coconut husk chips

This depends on air porosity, water retention required for the vegetable/fruit/flower you are growing

Reusable upto 3 times

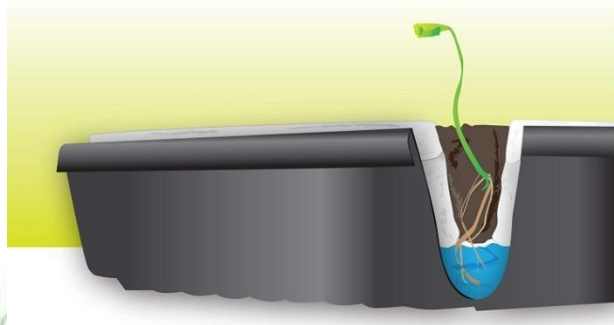

Coco Foam Plugs

These plugs are perfect for hydroponics

The Foam floats on top of the water

Reusable

Plug refills Available
