Where possibilities are endless…..

Sunolin cooking oil is derived from fractionation of Palm Oil and has excellent nutritional benefits with oxidative stability, does not revert readily and has extended shelf life. Its a composition of 50% unsaturated fatty acids and no trans-fatty acid. **Sunolin** is rich in natural vitamin A and vitamin E, and is an important source of the essential fatty acids, linoleic acid (Omega-6) & 100% Cholesterol Free.

Sunolin is highly recommended for deep frying of snacks, fish, chicken, chips, tidbits, doughnuts and salad. Its mostly used in general cooking at restaurant, home and continuous or batch wise industry. It is widely used in the preparation of instant noodles & bakery products.
