Safety Barricade Fence

Economical yet Resistant

Netpro Safety Barricade fence uses the highest quality polymers and colors to create the best overall safety barriers and nets in the industry.

NetPro Safety Fence and Warning Barriers are designed for protection around construction sites, manholes or for use as a property delineator. Providing an alternative to traditional metal construction materials, NetPro's safety barricade fence proves out to be a construction solution much easier to handle and highly visible.

Perfect for road work, crowd control, identifying obstacles and dangerous areas.

Effective Applications:

- > Construction Sites.
- > Highways, Railways.
- > Manholes, Diversions.
- > Cautioning towards obstacles & dangerous areas.
