

Company & Export Profile

Nigerian agricultural commodities — international supply

Company Profile

Team Export Nigeria is a Nigerian agricultural export and international supply company focused on connecting reliable Nigerian agricultural products with importers, wholesalers, distributors, food processors, manufacturers, and other international buyers.

We work with farmers, agricultural aggregators, and local supply networks to source and prepare agricultural commodities according to agreed buyer requirements.

Our objective is to provide international buyers with dependable access to Nigerian agricultural products while maintaining clear communication, agreed specifications, appropriate packaging, and professional export procedures.

Our Export Products

- Natural Sesame Seeds
- Sorghum
- Dried Hibiscus Flowers
- Dried Cassava Chips
- Soybeans
- Pearl Millet
- Dried Ginger

Our Supply Approach

We work with buyers based on their specific product requirements, quantity, destination, packaging, quality standards, and shipping terms.

For each confirmed inquiry, we provide the relevant product information and commercial offer before proceeding to contractual arrangements.

Target Markets

We supply products for international buyers and distributors across Africa, Europe, the Middle East, Asia, and other international markets, subject to product requirements and applicable import regulations.

Export Commercial Process

1

Buyer Selects Product

The buyer identifies the product of interest and provides the required quantity, destination, packaging, quality requirements, and intended application.

2

Buyer Contacts Team Export

The buyer contacts our export team through email, WhatsApp, or our website.

3

Product-Specific Specification Sheet

Team Export Nigeria provides the applicable official product specification sheet containing the relevant product information, quality parameters, packaging options, MOQ, supply information, and other applicable requirements.

4

Commercial Quotation

After reviewing the buyer's requirements, we prepare a commercial quotation based on the agreed product specification, quantity, destination, and shipping terms.

5

FCO / Commercial Offer

Where applicable, a formal commercial offer or FCO can be prepared based on the buyer's confirmed requirements.

6

Contract & Payment

Buyer and seller agree on the sales contract, payment method, inspection terms, shipping terms, and other commercial conditions.

7

Preparation & Inspection

The goods are prepared according to the agreed specification and packaging requirements. Inspection arrangements can be agreed where required.

8

Shipment

After completion of the agreed contractual requirements, the goods are prepared for shipment to the buyer's nominated destination.

Typical Shipping Terms

FOB, CFR, or CIF, subject to buyer requirements and agreed commercial terms.

Product Specifications & Buyer Inquiries

How to proceed with your sourcing requirement
