

SHREE MAHAKALI ENGINEERING WORKS

INDUSTRIAL EQUIPMENT • STAINLESS STEEL FABRICATION •
HYDRAULIC FITTINGS

PRODUCT CATALOGUE

Industrial products for your process and compressed-air needs

We supply and manufacture stainless-steel tanks and industrial fittings, alongside compressed-air equipment for industrial applications. Product configuration can be discussed against your project requirements.

SS MIXING / PROCESS TANKS

SS HYDRAULIC & TUBE FITTINGS

LOCATION
Ahmedabad, Gujarat, India

BUSINESS
Manufacturer / Supplier

17 , Radhe Krishna Industrial Hub, Behind Hinglaj Mata Temple, Kathwada–Bhuvaldi Road, Kathwada, Ahmedabad – 382430, Gujarat, India.

Stainless Steel Tanks & Vessels

Fabrication and supply options for storage, mixing, dosing and process requirements. Final design, material grade, capacity and fittings are confirmed against the buyer's specifications.

SS Storage Tanks

For industrial liquid storage. Available in SS304 / SS316 options subject to application and material specification. Capacity, thickness, orientation, nozzles and finish can be discussed.

SS Mixing Tanks

Custom configurations for mixing and process duties. Agitator / motor arrangement, manway, inlet-outlet connections, support legs and surface finish can be specified by the buyer.

Steam Jacketed & Process Tanks

Options for jacketed, dosing and process tanks based on the required heating arrangement, capacity, material grade and operating conditions.

Pressure / Air Receiver Vessels

MS or stainless-steel receiver and vessel requirements can be reviewed against working pressure, capacity and applicable inspection / certification requirements. Supply subject to agreed specifications.

Buyer enquiry checklist: capacity (litres), product handled, SS grade, working pressure / temperature if applicable, dimensions, nozzle schedule, finish, quantity and delivery destination.

02

COMPRESSED AIR SOLUTIONS

Compressors, Air Dryers & Filters

Equipment options for compressed-air generation, storage, drying and filtration. Please share the required flow, pressure, air quality and operating environment for a suitable quotation.

Screw Air Compressors

Industrial screw compressor supply options. Share required power (HP / kW), working pressure, air delivery (CFM or m³/min), voltage and duty cycle.

Reciprocating Air Compressors

High-pressure reciprocating compressor options for applications that need a piston-type compressed-air system. Model and operating details are confirmed during enquiry.

Compressed Air Line Filters

Available filtration categories include 30 micron, 0.1 micron and 0.01 micron options. Selection depends on flow rate, inlet pressure, required air quality and filter element compatibility.

Refrigerated / Desiccant Air Dryers

Air dryer options for moisture reduction in compressed-air systems. Share flow capacity, pressure dew point requirement, ambient conditions and inlet temperature.

SS Hydraulic & Instrumentation Fittings

Stainless-steel connection components for hydraulic, instrumentation and industrial tubing applications. Material grade, tube OD, thread standard and pressure rating must be confirmed for each enquiry.

	
Product range overview	Fitting detail / finish reference

Product range

- Double ferrule tube fittings
- Male and female connectors
- Straight unions and union elbows
- Union tees and male elbows
- Adapters and tube-to-thread connections
- Custom fitting requirements subject to drawing / sample review

Material options: SS304 / SS316, subject to product and specification. Thread / connection standards may include BSPP, BSPT, NPT, metric or fractional tube sizes where available and confirmed.

For a quotation, send: item name, size / tube OD, thread type, material grade, pressure requirement, quantity and any drawing or sample photo.

Let's discuss your requirement

Shree Mahakali Engineering Works supplies industrial equipment and fabrication solutions from Ahmedabad, Gujarat, India. We welcome enquiries from distributors, industrial end users, OEMs, maintenance contractors and project buyers.

PRODUCT RANGE	CUSTOM REQUIREMENTS	EXPORT ENQUIRIES
SS tanks and vessels, hydraulic fittings, compressors, air dryers, filters and receiver tanks.	Share dimensions, material grade, capacity, pressure, drawings or sample details for review.	Please mention destination country, target quantity, delivery terms and required documents.
