

CERTIFICATE OF ANALYSIS

POTASSIUM SULPHATE (SOP)

Main Chemical Parameters	Typical Content
K ₂ O, %	52,2
Sulphur, as S, %	18,0
Cl, %	0,15
Moisture, %	0,20
Insoluble, %	0,05
Option 1: Soluble powder, < 1%	99%
Option 2: Granular, 2mm-4mm	85%

Packing: 25 kg bags, Big Bags, or as per agreement with customer.

High quality potassium fertilizer is virtually free of chloride, nitrogen, and phosphate, allows for a precise application of potassium to the crops. Every phase of a healthy plant's growth and development relies on an adequate supply of potassium. Potash fertilizers can be applied directly to the soil or used in production of NPKs

Disclaimer for Specifications: Specifications should be used as a guideline only and are subject to change without notice. Normal tolerances apply. Final specifications are to be determined by an independent inspection.
