ORDERING & PRICE NOTES

How to order

Send the item number, selected size or set option, quantity and delivery destination. MOQ is 5 complete sets for a set option, or 6 pieces for an individual option. MOQ applies to the selected item / option.

Understanding the prices

All numerical prices from the saved USD price list have been reduced by 65%. New USD price = previous USD price $\times$ 0.35. Prices in the product tables are unit prices, not MOQ totals. For example: Item 001 small is \$7.00 per piece; 6 pieces total \$42.00 before shipping.

Delivery

Shipping is separate and depends on packed weight, quantity and destination. Dispatch preparation is 10-12 business days; courier transit is additional. Request the applicable shipping quote before confirming a wholesale order.

Specification checks

Item 018 is unpriced because its identity and specifications are missing. TBC means to be confirmed. Other source entries marked for review retain a confirmation note. Where a capacity, size or set quantity is not specified or is assumed, confirm the details before ordering. These are catalogue price calculations, not a fresh confirmation of stock or specifications.

Currency conversion

Reference rates dated 7 September 2026: $\text{€}1 = \$1.1622 = \text{₹}109.8210$. $\text{EUR} = \text{reduced USD} \div 1.1622$; $\text{INR} = \text{EUR} \times 109.8210$. All displayed prices are rounded to two decimal places. Converted prices are indicative; final quotations may reflect exchange-rate changes.
