

MERIDEAN SEAFOODS

ALASKA WILD SALMON

WILD-CAUGHT • FROZEN • BULK WHOLESALE • INTERNATIONAL SUPPLY

Alaska-origin wild salmon prepared for international B2B seafood buyers, including importers, wholesalers, distributors, retailers, restaurants and food-service companies.

Product Overview

Meridean Seafoods offers Alaska wild Pacific salmon for bulk international trade. Alaska produces several Pacific salmon species, including sockeye, Chinook, coho, chum and pink salmon. The exact HS classification depends on species, condition and presentation.

Specification	Product Information
Brand	Meridean Seafoods
Product	Alaska Wild Pacific Salmon
Origin	Alaska, USA
Harvest type	Wild-caught
Condition	Frozen
Species	Sockeye, Chinook, Coho, Chum or Pink — specify actual species
Frozen whole/fish HS	0303.11 Sockeye; 0303.12 other Pacific salmon*
Fresh/chilled HS	0302.13 Pacific salmon*
Frozen fillet HS	0304.81 Pacific/Atlantic/Danube salmon fillets*
Processing	Whole / dressed / headed-gutted / fillets / portions
Packaging	Export-grade cartons / bulk formats
Storage	Keep frozen; maintain uninterrupted cold chain

*Use the species/presentation-specific code for customs; these are six-digit HS references, not one universal code for every salmon product.

Buyer Applications

Wholesale distribution • Food service • Retail • Seafood processing • Private label

Quality, Handling & Cold Chain

Bulk salmon shipments depend on temperature control, traceability, accurate grading and documentation. Product claims and certifications should match the actual lot and facility records.

Frozen integrity	Maintain frozen condition throughout storage and transport.
Species traceability	Record exact species, harvest information and lot identification.
Product specification	Agree species, size, cut, glazing, pack weight and processing style.
Packaging integrity	Use clean, intact, export-suitable cartons with accurate labels.
Documentation	Ensure commercial, origin, health/inspection and destination documents match the shipment.
Destination compliance	Import permits, labeling and health requirements vary by destination.

Suggested Buyer Specification Sheet

Species • Scientific name • Harvest area • Whole/dressed/fillet/portion • Size/weight • Raw/cooked • Glazing • Net/gross carton weight • Cartons/pallet • Packing date • Shelf life • Storage temperature • Certificates/inspection documents • Destination

Packaging, Logistics & Bulk Supply

Confirm exact species, presentation, quantity, destination, required documents and Incoterm before issuing a final quotation.

Commercial Item	Recommended Listing Detail
Model number	AKSAL-001 — Alaska Wild Salmon (catalog SKU)
MOQ	Negotiable — insert verified minimum
Supply capacity	Insert verified monthly/seasonal capacity
Packaging	Bulk export cartons; state net weight and pallet configuration
Trade terms	FOB / CFR / CIF / other agreed Incoterm
Payment	T/T, L/C or other agreed terms
Lead time	Confirm against stock/production and destination
Shipping documents	Commercial invoice, packing list, certificate of origin and applicable export/health documents

Wholesale Quote Process

1. Destination and receiving port
2. Species and presentation
3. Quantity and size/weight
4. Required certificates and labeling
5. Preferred Incoterm
6. Agree specification, payment, delivery and inspection terms
